Chairman's Chat – September 2022

Spring has finally arrived. The longer the biological clock ticks, the longer the winter season feels. As the song goes "Spring is in the air", it feels like a new beginning at the club. Members are returning from hibernation and started attending our Friday nights. Our Displays commenced after the winter months. The remaining of the calendar year promises to be exciting, with various displays planned. Apart from the emails we circulate with regards to our events, it is also posted on our Facebook page.

We have repaired the blinds on the verandah, moved some from the original position, thus creating a larger seating area, which have enhanced the ambiance of this area. As mentioned in my previous chat, we have purchased a generator to assist with loadshedding. Our AGM is scheduled for Sunday the **9th of October 2022 at 11:00**. Please diarize this date. We would appreciate you attending this meeting. After the meeting, braai fires will be available for a bring and braai. The bar will be open as usual. Please remember that you need to be a paid-up member, to be able to vote at the AGM. On that note a word of thanks to those who so promptly paid their subs. Your contribution keeps the club afloat. For those who have not yet, this serves as a reminder that

your annual subs are now due. We do have some vacancies on the committee that we need to fill at the AGM. If you are willing to lend a hand, please contact me prior to the AGM.

The committee is at present considering the possibility of building two additional garages. If you would be interested in these, please contact me before the end of September 2022. Lew started decorating our verandah area with hubcaps and car related memorabilia. This looks great and gives the feel of a "Car Club". Should you have related memorabilia that will add to the theme, please donate them to the club. Looking forward to seeing the "family" at the club for a chat and a lekker kuier.

Regards

Francois

Editorial

Hi folks

"Spring is in the air..." along with a rather chilly wind most days but at least we have had some decent rain this winter and the dams are slowly rising. The latest figures I have seen is that the dams are sitting at just over 12% usable water. The weather experts have forecast a wet summer season so let us pray they are right. We are now running 100% from our water tanks at home so no more having to worry about keeping within your daily limit but one still must monitor your usage in case the rains don't come.

Now that the weather will soon be warming up, the club will be back to its busy Friday noggins and we have some really good displays coming up until the end of the year.

A lot of For Sale & Wanted items in the Newsletter – see page 12/13.

Take care everyone.

Sue

Just for a laugh.....a worldwide problem!?

I spotted the council inspecting pot holes the other day.

Apparently they're not bad enough to do anything with them yet.

Classic Black & White Pre-1985 Display – 5th August

An excellent turnout for our first Friday night display after our winter break. The lawn was packed with some impressive black and white cars of all makes and sizes. It was standing room only on the patio and Anel was kept terribly busy in the kitchen producing her delicious hamburgers and chips. Thank you everyone for your support.

DKW, Borgward, Audi, German & English Pre-1985 Cars – 19th August

The display for this Friday night was extended to include German and English Cars pre- 1985. We had one DKW on display with the rest of the cars being German or English. It was an icy cold and windy evening but the heater and roaring fire on the patio was most welcome.

Remembering the good old daysCaravanning!!

NEW MEMBERS

We would like to wish **Terry Wilson, Connor Auld** and **Les Copping** a hearty welcome to the club.

Did You know.....

.....that this one is specially for those out there who just randomly tosses out the name "Chitty Chitty Bang Bang" on every post done on similarly typed vehicles.

Chitty Chitty Bang Bang is the vintage racing car which is featured in the book, musical film and stage production of the same name. Writer Ian Fleming took his inspiration for the car from a series of aero-engined racing cars built by Count Louis Zborowski in the early 1920s, christened Chitty Bang Bang. The original Chitty Bang Bang's engine was from a Zeppelin dirigible. The name reputedly derived either from the sound it made whilst idling, or from a bawdy song from World War I. Six versions of the car were built for the film and a number of replicas have subsequently been produced. The version built for the stage production holds the record for the most expensive stage prop ever used.
